No. $\frac{S.B.}{66}$ of 1888.

From

THE SURGEON-GENERAL WITH THE GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
GENERAL DEPARTMENT,
Bombay.

Bombay, 25th February 1888.

SIR,

I have the honour to submit, for the information of His Excellency the Governor in Council, the Administration Report on the Lunatic Asylums of this Presidency for the year 1887.

2. During the year no additions have been made to the asylums. The increased accommodation provided in 1886 at Poona and Dhárwár has been fully occupied, but owing to the relief supplied by the opening of the Ratnágiri Asylum there is still accommodation available there and at Colába. The condition of the asylum buildings is generally satisfactory, though complaint is made at Ahmedabad of the insufficient protection from the rain afforded by the verandahs; at Dhárwár a new and higher railing is required—this is to be supplied; and some structural alterations have been carried out at Ratnágiri.

3. The conservancy of all the asylums is carefully attended to and is good. At Colába the water-supply from the mains was deficient in the hot weather and had to be supplemented by water-carts; at Ratnágiri the supply is also deficient; at the other asylums it is satisfactory.

4. The general health of the asylum population was on the whole satisfactory, but two fatal cases of cholera occurred at Poona. The mortality was not excessive; the total number of deaths was 54 or 7·95 per cent. of the average strength compared with 52 and 7·96 respectively in the previous year.

5. Summaries of the report by the Superintendents and the usual statements are appended. On the statements I beg to offer the following remarks:—

Statement No. I. showing the admissions, discharges, &c., of lunatics in the asylums, shows that the total population during the year was 913 as compared with 887 in the previous year. Of this number 765 were males and 148 females. There remained on the 1st January 552 males and 119 females; 195 males and 27 females were admitted; 18 males and 2 females re-admitted. The number discharged was 176; of these 163 were males and 13 females; they included 61 males and 6 females cured; 105 were transferred to friends, 86 improved and 19 unimproved; 4 were discharged otherwise (2 escaped and 2 transferred to the Marine Battalion Hospital); 45 males and 9 females, total 54, died; and on the 31st December 1887, there remained under treatment 557 males and 126 females, total 683. The daily average strength was 556·4 males and 122·8 females, total 679·2 against 653·2 in 1886.

6. The percentages of cures and deaths to the daily average strength were:—

Cured	Males	11·0	Total...	9·9
	Females	4·9		
Died	Males	8·1	Total...	7·9
	Females	7·3		

The percentages to admissions were:—

Cured	Males	28·6	Total...	27·7
	Females	20·7		
Died	Males	21·1	Total...	22·3
	Females	31·0		

7. Statement No. II. is a return of criminal lunatics; it shows that on the 1st January 1887 there remained 92 males and 6 females, total 98; 20 males and 4 females were admitted; one male re-admitted; making a total of 113 males and

10 females, total confined 123, as compared with 114 in the previous year. Of these 13 males and 1 female were discharged, 8 males died, and there remained on 31st December 92 males and 9 females, total 101. The daily average strength was 94·2 males, 8·0 females, total 102·2, against 96·4 in the previous year.

8. Statement No. III. is a return showing the religion, sex, and residence of those patients admitted into the asylums during the year. Of the 242 admissions and re-admissions, 71 were Christians, including 55 Europeans, 5 Eurasians, and 11 Native Christians; 100 were Hindus; 58 Mahomedans, and 3 Párs. Of the 55 Europeans admitted, 48 were soldiers received from all parts of India; other patients are received from various parts of the Presidency.

9. Statement No. IV. shows the occupation of the patients admitted into the asylum. Soldiers 48, beggars and mendicant fakirs 48, servants and labourers 36, cultivators 21, peons 11, merchants 11. In 23 cases the occupation of the patients was unknown.

10. Statement No. V. is a return showing the ages of patients admitted to the asylums according to sex. Under twenty there were 10 males and 2 females; between twenty and forty there were 172 males and 18 females; between forty and sixty 28 males and 8 females, and above sixty 3 males and one female.

11. Statement No. VI. gives the types of insanity among the asylum population, and the following table gives the results of treatment of each form:—

	Remained.	Admitted.	Total.	Recovered.	Improved.	Died.
Acute mania	220	113	333	44	35	17
Chronic mania	148	17	165	4	3	13
Melancholia	40	46	86	11	22	5
Actue dementia	73	11	84	4	4	3
Chronic dementia	151	42	193	4	21	12
Idiotcy	16	7	23	...	1	...
Mania with epilepsy	9	3	12	...	...	2
Imbecility	11	2	13	...	...	1
Amentia with epilepsy	2	...	2	...	...	...
Dementia with epilepsy ...	1	1	2	...	...	1
Total ...	671	242	913	67	86	54

12. Statement No. VII. gives the alleged causes of insanity among the inmates of the asylums. Of the 913 cases treated a cause is given in 424, and is unknown in 489. Physical causes number 344 and moral causes 80. Among physical causes gánja is credited with 142 cases, spirits 42, opium 10. Fever is given as the cause in 23 cases, epilepsy in 21, injury to the head in 4, destitution in 10, syphilis in 3, child-birth in 4, uterine disorder in 1, sun-stroke in 12, masturbation in 13, climate in 2, the disease was hereditary in 27 and congenital in 13, and in 15 cases previous attack is given as the cause. Of moral causes grief is alleged in 60 cases, anger in 4, fear and religion in 5 each, study and anxiety in 1 each, and jealousy and pecuniary losses in 2 each. Among criminal insanes charged with crimes of violence the alleged causes of insanity are given as follows :—

Gánja	12	Febrile attack	1
Opium	1	Hereditary	1
Spirits	1	Congenital	1
Fever	2	Religion	1
Epilepsy ...	2	Jealousy	1
Unknown	55		

13. Statement No. VIII. is a return of the sick (for other diseases than insanity) treated in the asylum hospitals with the results of treatment. At the beginning of the year 63 patients were in hospital, 249 were admitted, making the total 312. Of these 182 were cured, 3 were discharged otherwise, 54 died, and 73 remained under treatment at the end of the year. The chief causes of admission to hospital were ague 59, diarrhœa 46, debility 31, and dysentery 21. The causes

of death were diarrhœa 18, dysentery 8, debility 7; epilepsy, heart-disease and pneumonia 3 each; cholera, paralysis, remittent fever, and old age 2 each; and phthisis, dropsy, bronchitis and kidney disease 1 each.

14. Statement No. IX. is the cash account of the asylums for the year. The total expenditure amounted to Rs. 1,23,336-3-4 as compared with Rs. 1,33,858-12-1 in the previous year, and included Rs. 1,03,761-15-10 received from the treasury, Rs. 9,066-6-9 remitted to the treasury on account of paying patients, Rs. 3,407-11-10 on account of Manufacturing Department, Rs. 5,857-13-2 on account of work done by the Public Works Department, Rs. 136-5-0 cost of clothing supplied by the Jail Department, and Rs. 1,069-9-9 the cost of English stores and medicines. Deducting the amount remitted to the treasury on account of paying patients from the sum of the amounts received from the treasury, adjusted by Government, and value of articles received from the Manufacturing Department, the net cost was Rs. 1,05,130-11-10 against Rs. 1,14,816-11-5 in the previous year. The decrease is due chiefly to diminished cost of diets and contingencies and of charges by the Public Works Department. The net cost per patient was Rs. 154-12-6 against Rs. 175-12-4 in the year 1886. It may, therefore, be considered that the strenuous efforts made for economy in lunatic asylum management have been in some measure successful. The following table gives the net cost in each asylum for the last two years :—

	1887.			1886.		
	Rs.	a.	p.	Rs.	a.	p.
Colába	199	6	4	232	13	3
Ratnágiri	218	9	0	348	15	3
Poona	141	12	9	142	9	5
Dhárwár	220	4	7	348	9	4
Ahmedabad	115	14	0	117	0	11
Hyderabad	75	9	2	72	3	9
Average Cost...	154	12	6	175	12	4
Average Daily Strength...	679·2			653·2		

15. Statement No. X. shows the sanctioned establishments of the asylums. The total monthly cost is Rs. 4,096-8-0 as compared with Rs. 3,871-8-0 in the previous year, the increase is due to the promotion of the Superintendent of the Colába Asylum.

16. Statement No. XI. shows receipts and expenditure on account of manufactures. The mean population was 679·2—males 556·4 and females 122·8. The average number employed was 326·4—males 273·6 and females 52·8. The total credits amounted to Rs. 6,239-11-9, the total debits to Rs. 2,154-2-6, showing an excess of credits on profits of Rs. 4,085-9-3. The memorandum below the statement shows the net profits to be Rs. 4,154-8-3 as against Rs. 3,965-0-8 in the previous year.

17. Statement No. XII. gives the condition of the asylum population as to caste, sex, and marriage : this statement is summarized in the following tables :—

No. I.

		Total Number									Percentage of					
		Treated.			Cured.			Died.			Cured to Treated.			Deaths to Treated.		
		Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.

18. Statement No. XIII. gives further particulars of criminal insanes regarding caste, sex, nature of crime committed, and the number confined. Of an average daily strength of 102·2, including 94·2 males and 8·0 females, 36 males and 4·5 females, total 40·5, were employed. As regards crimes committed, 22 males and 1 female were charged with theft, 43 males and 6 females with murder, 5 males and 1 female with culpable homicide not amounting to murder, 5 males with attempt to commit suicide, 16 males with voluntarily causing grievous hurt, 5 males with house-breaking, 8 males with mischief and assault, and 9 males and 2 females with miscellaneous offences.

19. All the asylums were inspected during the year or within a short period after the termination of the year. The Colába Asylum has found an able Superintendent in Surgeon Parker; Surgeon-Major Robb, the Superintendent at Ahmedabad, is most careful and attentive in his management; Brigade-Surgeon Cook, Poona, has conducted his duties in the most satisfactory manner; the small asylum at Dhárwár was found in excellent order under Surgeon-Major McConaghy; at Ratnágiri Surgeon Collie has been most attentive to his duties, while the Deputy Surgeon-General, Sind, reports the management of the Hyderabad Asylum everything that can be wished under Surgeon-Major Keelan.

I have the honour to be,
Sir,
Your most obedient Servant,
W. J. MOORE,
Surgeon-General with the Government of Bombay.

COLABA ASYLUM.

Superintendent—SURGEON-MAJOR J. PARKER, M.D.

The asylum was in charge of Surgeon-Major J. Parker, M.D., throughout the year. On the 1st January 1887 the number of patients remaining under treatment was 281; of these 230 were males and 51 females. During the year 139 males and 10 females were admitted, of whom 53 males and 2 females were Europeans, and 16 males and 2 females were re-admissions, making a total of 430 patients during the year. Of the total 33 were discharged "recovered," 63 "improved," 17 "not improved," and 3 "otherwise," and there were 33 deaths, leaving on the 31st December 281 patients—231 males and 50 females. The highest number of patients confined at any one time was 299, the lowest 271. The daily average strength was 230·5 males and 49·9 females, total 280·4. The percentages on the daily average strength were Europeans recovered 10·7, died 8; Natives recovered 11·9, died 12·3. Among the 55 Europeans admitted 47 were soldiers, 1 a marine, the remainder civilians. Of the 149 admissions 55 were Europeans, 5 were Eurasians, 7 were Native Christians, 53 Hindus, 16 Mahomedans, and 13 Pársis. The cause of insanity among Europeans was known in 36 and unknown in 19 of the admissions; of the former 31 are attributed to physical and 5 to moral causes. Among Native admissions the cause was known in 55 and unknown in 39 instances; of the known causes 40 were classed as physical and 14 as moral. The abuse of spirits and gánja, hereditary taint, fear and want were the most frequent causes given. The daily average strength of criminal lunatics was 50·3 males and 2·9 females, total 53·2; 7 were discharged and 7 died. The number of patients treated in hospital for diseases other than insanity was 124, and the daily average sick was 21·9. The deaths numbered 33 or 11·8 per cent. of the average strength. The chief cause of death was diarrhœa. Vaccination is practised whenever necessary. Accommodation is supplied for 250 males and 50 females; further accommodation, for females especially, is required, cases having to be refused admission. The water-supply is not satisfactory, particularly in the hot weather when the pipe-supply ceases and water has to be brought to the asylum in carts. Approved principles of treatment are followed, but the want of recreation grounds and more extended premises are much felt. Repairs were carried out by the Public Works Department. There has been no change in the establishment. Some of the warders have required punishment, but generally speaking there was improvement in the discharge of their duties. The average daily number of patients employed was 101·6 on various occupations. The cost was Rs. 73,065-0-8, the net cost per patient Rs. 199-6-4, as compared with Rs. 85,273-12-0 and Rs. 232-13-3 respectively in the previous year.

RATNAGIRI ASYLUM.

Superintendent—SURGEON M. A. T. COLLIE, M.B.

The asylum was under the superintendence of Surgeon McCalman to 7th January, Surgeon Collie to 7th April, Surgeon McCalman to 19th May, and again Surgeon Collie to the end of the year. The number of patients remaining in the asylum on the 1st January 1887 was 29; of these 26 were males and 3 females. During the year 14 males and 9 females were admitted, making a total of 52 patients under treatment during the year. Of the total 4 males were cured, 1 male and 1 female were discharged improved, 2 males and 1 female died, and on the 31st December 33 males and 10 females, total 43, remained under treatment. The daily average strength was 29·4 males, 6·1 females, total 35·5. Eight criminal lunatics remained at the beginning of the year, 4 were admitted, and none were discharged. Of the 23 admissions, 19 were Hindus and 4 Mahomedans. The forms of insanity among admissions were acute mania 6, chronic mania 3, melancholia 5, chronic dementia 5, idiotcy 3, and imbecility 1. The causes, so far as known, were gánja 6, spirits 1, fever 1, grief 2, and fear 1. Eight patients were treated in hospital, 5 were cured, and 3 died. Those patients willing to work are employed in the garden; the average number employed was 24. The water-supply is insufficient. The asylum contains accommodation for 60 males and 36 females. Verandahs have been provided to the barracks, and certain other structural improvements are being carried out. The conduct of the establishment has been satisfactory. The total cost was Rs. 7,759-9-9, the cost per patient Rs. 218-9

POONA ASYLUM.

Superintendent—BRIGADE-SURGEON H. COOK, M.D.

Brigade-Surgeon H. Cook was in charge of the asylum for the whole year. No alterations were made to the building. There is accommodation for 61 males and 22 females. The water-supply is good and abundant; the conservancy and drainage efficient. At the beginning of the year 62 male and 22 female patients remained under treatment, 12 males and 5 females were admitted, making a total treated of 74 males and 27 females; 3 males were discharged cured, 6 males and 1 female improved, 3 males and 3 females died, leaving under treatment 62 males and 23 females. The daily average strength was 60·7 males and 22·6 females, total 83·3. The percentage of cured to strength was 3·6, of died to strength 7·2. The forms of insanity among new admissions were mania acute 5, mania chronic 3, melancholia 1, dementia acute 6, dementia chronic 1, and amentia 1. Of the 17 admissions, 12 were Hindus, 4 Mahomedans. The cause of disease in those admitted was known in 4 and unknown in 13; gánja was the cause given in 3 cases and grief in 1. The total number

treated as sick was 57, of whom 31 were fresh admissions; 6 deaths occurred, 4 from debility and 2 from cholera. The daily average number employed was 24·6 males and 8 females. The males are employed in gardening and the females in grinding corn. There has been no change in the management of the patients, all are allowed as much liberty as possible. The behaviour of the establishment has been, on the whole, good. The total cost was Rs. 11,919-3-9, the net cost per patient Rs. 141-12-9, as compared with Rs. 11,692-15-3 and Rs. 142-9-5 respectively in the previous year.

DHA'RWA'R ASYLUM.

Superintendent—SURGEON-MAJOR MCCONAGHY, M.D.

The asylum was under the charge of Surgeon-Major J. Davidson, M.B., until the 2nd July 1887, and afterwards of Surgeon-Major McConaghy to the end of the year. The buildings are in good repair. The asylum has accommodation for 28 patients, allowing a separate sleeping cell for each. On 1st January 28 patients, 17 males and 11 females, remained, 1 male was admitted, and 1 male was discharged, leaving 28 patients at the end of the year. Of the 29 patients 5 males suffered from chronic mania, 12 males and 10 females from chronic dementia, and 1 female from idiotcy. The cause of insanity is given in 11 cases, in 18 it is unknown. Of known causes 8 are physical, as abuse of intoxicants, fever, epilepsy, and 3 are moral, as grief and fear. Five criminal lunatics remained from the previous year; there was no admission or discharge in this class. The general health has been good, there was no death; 29 patients were treated for complaints other than insanity, chiefly for ague. The daily average number employed in the garden was 4. The value of vegetables supplied to the patients was estimated at Rs. 75-9-0 and the amount realized by sales was Rs. 100. The committee of visitors were regular in their attendance. The conduct of the establishment was satisfactory, and Hospital Assistant Chimnáji Rámchandra is again commended for the careful and efficient performance of his duties. The cost was Rs. 6,168-2-2, the cost per patient Rs. 220-4-7, as compared with Rs. 8,366-0-7 and Rs. 348-9-4 respectively in the previous year.

AHMEDABAD ASYLUM.

Superintendent—SURGEON-MAJOR J. ROBB, M.D.

The asylum was under the charge of Surgeon-Major Robb to 25th July, then of Surgeon Milne to 24th October, and again of Surgeon-Major Robb to the end of the year. No alterations have been made in the building; the verandahs are too narrow to keep off the rain; a new women's ward is desirable; at present the women are in too close proximity to the men. There is accommodation for 90 males and 18 females. The daily average strength was 110, the maximum number confined at any one time 112. There were 14 admissions and 2 re-admissions, 10 were discharged, of whom 8 were cured and 2 unimproved. The number brought on the sick list was 37, chiefly from fever; other causes were bowel-complaints and debility; 2 deaths occurred. Sixteen criminal insanes were in confinement; there was no admission or discharge among this class of patients. The most common causes of insanity are gánja smoking, epilepsy and domestic or personal trouble. Of the admissions 9 were Hindus, 6 Mahomedans, and 1 Native Christian. Out-door work in the garden is particularly encouraged; grinding grain and work connected with the asylum is also engaged in by some; the out-door work is particularly beneficial in keeping the patients in health. Some domestic pets are kept and carefully attended to by some of the patients. The water-supply is abundant but not very good. The food, clothing, and conservancy are satisfactory. The visitors have been regular. The conduct of the establishment was good. Hospital Assistant Joseph Solomon continues to merit commendation. The cost was Rs. 13,632-8-10, the net cost per patient Rs. 115-14-0, as compared with Rs. 13,816-5-10 and Rs. 117-0-11 respectively in the previous year.

SIR COWASJI JEHANGIER ASYLUM, HYDERABAD (SIND).

Superintendent—SURGEON-MAJOR B. C. KEELAN.

The asylum was under the superintendence of Surgeon-Major Keelan for the whole year. The buildings are unaltered; a shed was built by the lunatics. The water-supply and conservancy are satisfactory; the food and clothing sufficient and of good quality. The accommodation is ample, the asylum can contain 170 patients, the largest number confined at any one time was 153. The number admitted was 36—34 males and 2 females; 7 were Hindus, 27 Mahomedans and 2 Native Christians. The number discharged was 33, including 30 males and 3 females, and 10 died. The number on the sick list was 57, chiefly for ague, diarrhœa and dysentery. Nearly all the lunatics are employed in gardening, brick-making, drawing water, and cooking, &c.; the average number employed was 73 males and 15 females. Patients who work well receive some little indulgences as encouragement. The insanes are supplied with musical instruments for their amusement. The garden has been fairly productive and has yielded a daily ration of fresh vegetables during the year to the inmates of the asylum, as well as a crop of bájri. The establishment have behaved satisfactorily, and Hospital Assistant Mendes is again mentioned with high praise by the Superintendent. The visitors have met regularly. The total cost was Rs. 10,791-10-2, the cost per patient Rs. 75-9-2, as compared with Rs. 9,824-4-1 and Rs. 72-3-9 respectively in the previous year.

STATEMENTS.

No. 1375.

GENERAL DEPARTMENT.

Bombay Castle, 1st May 1888.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—111, dated 23rd March 1888—Submitting the Annual Administration Report of the Lunatic Asylums in the Bombay Presidency for the year 1887.

RESOLUTION.—The number of Lunatic Asylums in the Presidency remained unchanged during the year, nor was any addition made to the accommodation they contain. The relief afforded by the opening of the Ratnágiri Asylum in 1886 was fully felt, and there is still accommodation available there and at Colába. On the other hand the institutions at Poona and Dhárwár, though enlarged in the same year, have been fully occupied.

2. The average daily strength of the inmates was 679·2 (556·4 males and 122·8 females) as against 653·2 in the previous year, an increase due to the extension of accommodation referred to in the preceding paragraph. The total number of inmates was 913, of whom 671 were in residence on the 1st of January, 222 were newly admitted during the year, and 20 re-admitted. Of these 176 were discharged and 54 died, while there remained in confinement at the close of the year 683. The mortality was not excessive though rather greater than in the past two years.

3. Of criminal lunatics 123 were in confinement during the year as against 114 in 1886, of whom 113 were men and 10 women. Fourteen of these were discharged and 8 died, leaving 101 upon the 31st of December, 3 more than the number with which the year opened.

4. As regards the types of insanity and its causes the statistics given tell no new tale. Gánja still claims its large share of victims to mental disease, 154 cases out of 365 in which it has been possible to clearly assign a physical cause to the malady being attributable to it.

5. Deducting the amounts received on account of paying patients, and the value of articles manufactured by the inmates the total net cost of the asylums for the year was Rs. 1,05,130-11-10 or Rs. 154-12-6 per head. His Excellency in Council marks with satisfaction that these figures show a considerable reduction from those of 1886, in which year the total cost of the asylums was Rs. 1,14,816-11-5, and the net cost per head was Rs. 175-12-4, while in 1885, the latter was Rs. 186-9-7. These results point to much extravagance in the past administration of these institutions, nor does a comparative examination of the returns of the different asylums preclude the expectation that in some the limits of economy have not yet been reached, the example of Hyderabad, making all allowance for the comparatively large number of patients over whom the cost of establishment is distributed, showing what can be effected in this direction by careful management. The thanks of Government should be given to all those officers of the department who have by their careful supervision contributed to the above satisfactory results, especially to Surgeons-Major Robb and Keelan, who have been especially attentive to the management of the asylums committed to their care.

E. LAWRENCE,
Acting Under Secretary to Government.

To

The Surgeon General with the Government of Bombay,
The Sanitary Commissioner,
The Commissioner, N. D.,
The Commissioner, C. D.,
The Commissioner, S. D.,
The Commissioner in Sind,
The Collectors of Ahmedabad, Poona, Dhárwár and Ratnágiri,
